

SKY-VAC DUST EXTRACTOR FOR A CLEANER WORKING ENVIRONMENT

The SkyVac is a powerful grain cleaner which removes the trash, dust and fines from the grain as it is dried, leaving you with precisely what you want in store - a cleaner better finished sample with a higher hectolitre weight.

With regard to safety and the environment, the new SkyVac is a major inroad into the problem of dust in the atmosphere. You and your staff can now work in a far cleaner, less dusty environment and get the benefits of a better sample at the same time.
